PRICE REACTION HAS NOW BEGUN

Federal Reserve Board Reviews Business Conditions For August.

FOODSTUFFS DECLINE

Textiles and Shoes Moving Downward From Extremely High Level.

WASHINGTON, Sept. 5.—Reactions from the high price level established during the war has set in, says the federal reserve board's review of business conditions in August. Not only some foodstuffs declining in cost to the consumer, but the price of wearing apparel, such as textiles and shoes also has been affected, the review says. Business continues as an "extremely high level" and confidence of a satisfactory solution of the wage and price problems was reported from all sections of the country. A movement toward lower prices appears to be in process in certain directions, prices of certain foodstuffs are declining, a feeling of conservatism is noticeable in certain lines such as the textile and shoe industries in which price advances had previously been most marked, "resales" at some concession in price being reported. "Reports from the federal reserve agents generally indicate a feeling of confidence that a satisfactory solution of the price and wage problems will be reached. The actual volume of business transacted continues at an extremely high level for the present season of the year. The agricultural outlook on the whole is distinctly less favorable than a month ago, although the large acreage sown in certain cases will compensate for decreased yield per acre. Cotton in particular is in poor condition. "Reflecting the feeling of uncertainty which prevails, the volume of speculation has abated, and declines in the price of securities have occurred. The general business situation, however, is at the bottom strong."

Discussing labor conditions, the board recorded that reports from the majority of districts designate the situation as "unsettled."

Situation Less Grave in Great Britain. LONDON, Thursday, Sept. 4.—The industrial situation in Great Britain at the present moment appears far less grave than a few months ago, when there was a threat of a complete upheaval of labor. Since the settlement of Yorkshire strike there has been no trouble of great magnitude, although

small strikes in various industries are still frequent and tramway workers are threatening a national walkout if a wage advance is not granted. Generally, however, unrest throughout the country has been lessened since ministerial revelations of the country's financial position which seems to have had a moderating influence.

Great Britain's Problem. LONDON, Sept. 5.—(By The Associated Press.)—Great Britain's greatest economic problems are decreased production and port transition facilities, says the monthly report of the American chamber of commerce. This congestion directly affects American exportations. The chamber warns the American expeditions not to rush the British market unessentials and to invest in British securities in order to raise the pound sterling rate.

WORLD'S MARKETS

NEW YORK, Sept. 5.—An abrupt decline of 10 points in Crucible Steel attended by sympathetic heaviness in kindred shares imparted an uncertain tone to the stock market at the opening of today's session. Reactions were balanced by gains of 1 to 2½ points in shipping, oil and several of the equipments, notably American International, common and preferred, Mexican Petroleum and American Locomotive. United States Steel yielded a large fraction and rails were irregular, the Pacific especially yielding to moderate pressure.

Crucible recovered half its loss in the first hour, but changes in other active issues became increasingly irregular, equipments, motors, oil and food shares displaying reactionary tendencies. These reversals were offset by a rally in United States Steel and the greater strength of oils, notably Mexican Petroleum, which crossed 200 at a gain of 6 points. Advances among shipping were extended and several rubber issues improved, Keystone Tire proving a marked exception at a 4½ point decline. Studebaker and General Motors led another setback towards noon. Call money opened at 5½ per cent.

Local transactions were active at midday, gaining 3 to 4 points, but this movement was immediately followed by heavy selling of the general list at extreme reactions of 2 to 10 points. The break was attributed to latest labor development, particularly in the steel industry.

CHICAGO GRAIN

CHICAGO, Sept. 5.—Although the corn market showed considerable weakness at the outset today, upturns in prices later became the rule. On the initial decline the September delivery reached the lowest point since July 10. Sentiment was much more mixed than has been the rule of late, and a strong belief was expressed in some quarters that liquidation had run its course for the time being. Opening prices, which were unchanged to 1½c lower with September \$1.59@1.60 and December \$1.27½@1.28½, were followed by a general advance well above yesterday's finish.

Oats rallied with corn. Besides, there was said to be an improved cash demand. After opening unchanged to 1½c lower, including December at 70½ to 70¾, the market made a moderate advance all around.

Provisions sympathized with the strength of grain. Transactions, however, lacked volume. The recent break in corn of 46 cents from the high point on the December delivery was talked of as having discounted a great deal of the agitation over the high cost of living. Prices closed strong, 1¼ to 3¼c net higher with September \$1.62 and December \$1.31½ to 1.31¾.

In the later dealings provision demand increased from shorts and commission houses sharp gains ensued.

McMURTRY FLATCOTE THE LIQUID WALL PAPER

A soft, velvety finish of remarkable richness and beauty can be obtained upon any wall—old or new—with McMURTRY FLATCOTE, "the liquid wall paper." Nothing better for interior decoration in residences, public buildings, hospitals and churches. It can be applied equally well over kalsomine, wall paper, metal, burlap, concrete or cement. When soiled, a simple application of soap and water will restore its original freshness without injury to the finish. FLATCOTE may be had in sixteen shades and white.

Chocolates

That

Captivate the

Girls

CANTERBURY

BURY

There is no comparison between

Canterbury and the common choco-

lates. They have the quality, look,

the quality taste and ARE the qual-

ity kind. Girls are so quick to notice

the difference in chocolates, and to

give Canterbury means a new sensa-

tion—a realization of the fact that

these chocolates express the ideals

of the giver, the taste of the recipient

and the standard of this store as

no other chocolates can. The very

package speaks louder than words,

and then to open the package you

behold something decidedly pleas-

ing—every piece wrapped separately

by machinery, insuring all the deli-

ciousness retained from the fac-

tory to the lips.

\$1 to \$2

a Box

Culley Says

When You Have a Prescription to Be Filled

We can fill it—In our laboratory are thousands of drugs

and many hundreds of combined chemicals, just such as

your doctor has occasion to order day

after day. Needless to say we can save

you money—time—trouble and worry.

Your prescription is filled by a registered

graduate pharmacist—one who has

had experience and education. A

man duly qualified both by govern-

ment and state laws to handle and com-

ound medicines that might otherwise be dangerous in the

hands of one who was a novice.
